

Heatmap showing the correlation of gene expression between various genes. The color scale ranges from -1 (blue) to 1 (red). The genes listed on the axes are RbohA, SnRK2, ACO2, HSP70, PR1b, RD29B, 13-LOX, P5CS, ERF1, CAT1, CO, SWEET, SP6A, and MOZJG3. The diagonal elements are all 1.0 (red).
